Hi John, the Incident Management Team activated on Saturday for the Gold King Mine incident in Colorado. When the pollution got into the Animas River and came into New Mexico we got involved.

I am sending this email for the RIC (Ronnie Crossland) and John Martin the Planning Chief. We would like to get Mike Torres to come to the REOC and fill the position as Situation Unit Leader. If you are in agreement, and Mike agrees, would you please send him to the REOC asap on Monday, August 10, 2015.
